

IMSE

YOUR PROBLEMS ARE OUR CONCERN

MAK

SPARE PARTS SUITABLE FOR:

MAK 20/25/32, 453AK/B/C diesel engine

The above MAK engine types are probably the most popular engine types used in Marine and Power industry since 1980. As a result many of these engines are in operation.

For above engine types, IMSE is keen on offering its services as a one stop centre providing suitable spares and technical support. IMSE has experienced MAK engineers within its organization to provide immediate consultation to any technical problems related to this engine model.

All key components are supplied with Class certificate.
